

— Rhonda Struminger, Ph.D. —

Education

Texas A&M University, College Station, TX
Department of Political Science, Ph.D., December 2013

Fields: Comparative and American Politics

Dissertation: "Education Spending: Impacts on Human Capital Development"

An analysis of supply and demand-side education policies at the global level and a case study of how such policies are implemented at the local level in Mexico.

Committee: Michelle M. Taylor-Robinson (chair), James R. Rogers, Marisa Kellam, and Zulema Valdez

Harvard University Graduate School of Education (HGSE), Cambridge, MA
Masters of Education, Technology in Education Program, February 1999

Carnegie Mellon University, Pittsburgh, PA
Bachelor of Science Degree in Industrial Management, May, 1994
Bachelor of Science Degree in Applied History, May, 1993

The American University World Capitals Program, Brussels, Belgium
Study Abroad, August 1992 - January 1993

Professional Experience

Texas A&M University, Ecosystem Science and Management, College Station, TX, September 2015
– Current

Assistant Professor of the Practice & Assistant Research Professor

- Research includes informal STEM curricula (development and implementation), science communication, the impact of conditional cash transfer policies on human capital development, impacts of human and social capital development on the health of the environment, as well as education policies.

CS4Ed, Consulting Services for Education, College Station, TX, October 2010 – Current
Vice President, Research

- Provide clients with background research on products, services, and market activity, and interpret data for business planning.
- Develop project plans and project documentation for clients and assist with project implementation.
- Collaborate on the production of case studies, reports, business plans, and presentations.

Centro de Investigaciones Científicas de las Huastecas "Aguazarca" (CICHAZ), 2005 – Current
Co-Director

CICHAZ is a scientific field research station based in Calnali, Hidalgo, Mexico. CICHAZ is chartered as a non-profit organization in Mexico (CICHAZ, A.C.) and as a 501(c)(3) non-profit organization in the United States (CICHAZ USA).

- Develop and evaluate outreach programming.
- Establish long-term financial support.
- Coordinate academic research and outreach activities taking place at the field station.

Houghton Mifflin Publishing Company, Boston, MA, February 2001 – September 2005

Director, Product Integration

Project Manager

- Responsible for integrating technology products and helping with product strategies given technology-oriented education policies.
- Responsible for developing project plans and requirements for corporate technology initiatives, and managing the development teams implementing approved projects.

Houghton Mifflin Publishing Company, continued

- Managed the inter-divisional committee overseeing the development of a corporate intermediary standard-to-content correlation tool.
- Worked with the Customized Education Services team to support district customization requests.
- Managed the implementation of the Master Learning Objective Data Model for K-12 Math, Reading /Language Arts, Science, and Social Studies divisions.

GlobaLearn, Cambridge, MA, July 1999-November 2000

Director of Content

Director of Online and Curriculum Productions

- Managed the development of and implemented K-12 Social Studies and Language Arts curricula for online and off-line learning environments.
- Conducted usability studies and formative evaluations with teachers and students.
- Managed the research, design, and development of all online and off-line curriculum materials for two expeditions through Africa.

Massachusetts Institute of Technology (MIT), The Information Technology Masters of Engineering Project: Distributed Software Engineering Laboratory, Cambridge, MA, August 1998 - August 1999

Teaching and Research Assistant

- Helped develop a technology-based curriculum distributed between software engineering classrooms at MIT and CICESE, an engineering university in Ensenada, Mexico.
- Assisted the professor with course introduction and student support throughout the course.

Harvard Project Zero, Cambridge, MA, February 1998 - August 1999

Research Associate

- Organized and helped run workshops for 30 teachers around the ALPS Web site and the Teaching For Understanding framework. Also provided ongoing support for these teachers.
- Assisted with a Teaching For Understanding workshop in Ensenada, Mexico (March, 1999) broadcast between three universities interested in the Teaching For Understanding framework.

National Geographic, Washington, D.C., June 1994 - May 1997

Production Coordinator, National Geographic Online, November 1996 - May 1997

Researcher, National Geographic Television, September 1994 - November 1996

Associate Producer, NG Television, April 1996

Cable News Network, New York City, May - July 1993

News Desk, Tape Desk, and Library Intern

The Wall Street Journal Europe, Brussels, Belgium, September - December 1992

Editorial Page Intern

Teaching Experience

- Spatial Project Management (ESSM 464), Ecosystem Science and Management, Texas A&M University, Spring 2016 - Current (Co-instructor)
- Exploring Citizen Science (ESSM 685), Ecosystems Science and Management, Texas A&M University, Fall 2016
- Seminar in Executive Leadership I & II, School of Military Science at Texas A&M University, 2014 – 2016
- Political Systems of Latin America (POLS 323), Texas A&M University, Fall 2011 and Spring 2012
Upper level undergraduate, writing-intensive course
- G.E.D. Prep Class, The Academy of Hope, Washington, D.C., 1996-1997

- *UN Declaration of Human Rights Exhibit*, Co-Director, Harvard Graduate School of Education, Nov 1998
- “The Social Challenge: A gender based K-12 interactive, instructional software.” Harvard Graduate School of Education Student Research Conference, Cambridge, MA. February 1998.

Funding

- NSF-FSML grant – “Science in the Sierra Madre: Developing Infrastructure for Multidisciplinary Research at the CICHAZ Field Station” (DBI-1723266), September 2017 – August 2019.
- NSF Exploratory Pathways – Advancing Informal STEM Learning Grant: “Collaborative Research: Informal STEM learning at biological field stations” (DRL-1713359), September 2017- August 2019.

Membership & Associations

- Organization of Biological Field Stations
- Scholars Strategy Network

Honors and Awards

- Houghton Mifflin Corporate Information Technology Boston Employee of the Year, 2004
- Ethnographic Honors Thesis, Carnegie Mellon University 1992 - 1993
- Phi Alpha Theta, History Honors Society

Fellowships

- Association of Former Students Graduate Merit Fellowship, Texas A&M University, 2006-2007
- Fifth Year Scholar, Carnegie Mellon University, 1993 - 1994

Computer and Quantitative Skills

- PC and Mac systems
- STATA and SPSS
- Web Development software
- HTML
- Microsoft Office (PowerPoint, Word, and Excel)
- Microsoft Project, Access, and Netmeeting
- Inspiration and Microsoft Visio
- Adobe Photoshop and Illustrator

Research Fields

- Informal STEM learning
- Science Communication
- Science as a public good
- Education Policy
